Alpha Mask and Stamp Creator 16

Gradient Picker 17

Product Overview

The World Building Bundle for MicroVerse is a collection of assets that were developed to support your scene creation with MicroVerse.

The bundle is for users who want to get all my MicroVerse related assets at a reduced price.

Please visit the Unity Asset Store page and assign the assets as listed below to your personal Unity Asset Store account.

Thank you very much for your purchase!

Assets of this Bundle

With the purchase of this bundle you get access to the following assets:

- Ultimate StampIT! Collection
- Genesis for MicroVerse
- Biomes and Presets for MicroVerse
- Alpha Mask and Stamp Creator
- Gradient Picker

You can assign these individual assets to your account on the Unity Asset Store.

Please note that the Ultimate StampIT! Collection is already a bundle. First assign that one, then assign the individual StampIT! Assets.

Version 1.7.3

- **Bugfix** Skip non-renderers during automatic spline area mask creation

Version 1.7.2

- **New** Tools for MicroVerse Roads

Biomes and Presets for MicroVerse

Version 1.27.0

- **Update** Moved BK - Meadows, BK - Mountain and BK - Fantasy Forest to BK_PureNatureLegacy.zip. The versions 1.x of the asset are no longer available on the Asset Store. If you still need the presets, extract the zip file to the Data folder.

Version 1.26.0

- **Update** Castle Valley Collection 1 (URP)

Version 1.25.0

- **New** Nature Package - Forest Environment (URP)

Version 1.24.0

- **Update** Meadow Environment
- dedicated render pipeline presets since the guids changed in Meadow Environment depending on render pipeline

Version 1.23.0

- **Update** Nature Package - Forest Environment
- Updated required installed object to use latest version from the Asset Store

Version 1.22.0

- **New** Pure Nature 2: Meadows (v1.x)
- **New** Pure Nature 2: Mountains (v1.x)
- **New** Pure Nature 2: Fantasy Forest (v1.x)

  Note: Pure Nature 2 got a breaking change with version 2.x, the GUIDs were regenerated and implicitly backwards compatibility removed. This is a breaking change, but a welcome one. It allows all BK assets to co-exist in the same project. In order to keep version v1.x alive for everyone who still uses that version the Biomes & Presets were moved to Biomes

and Presets 1 from Biomes and Presets 2. Biomes and Presets 2 was updated (all presets recreated) with the latest v2.x of Pure Nature 2.

Version 1.21.0

- **New** Nature Package - Forest Environment (HDRP)

Version 1.20.0

- **Enhancement** Mossy Cedrus Forest
  New biomes

Version 1.19.0

- **Update** Mossy Cedrus Forest
  Forest biome adjustments

Version 1.18.2

- **Update** Meadow Environment
  New presets for vegetation, objects and biomes

Version 1.18.1

- **Update** Forest Environment
- New presets for textures
- Updated falloff from global to range
- Updated noise & seeds

Version 1.18.0

- **Update** Mountain Environment
- New presets for vegetation and biomes

Version 1.17.2

- **Update** Suntail Stylized Fantasy Village
- Updated to latest version of the asset

Version 1.17.1

- **Update** Alien Terrain Pack
- Additional presets for vegetation and biomes

Version 1.17.0

- **New** Alien Terrain Pack

Version 1.16.0

- **New** Mexican Desert Vegetation

Version 1.15.0

- **New** Fantasy Adventure Environment

Version 1.14.0

- **New** Unity Terrain - HDRP Demo Scene
- **New** Unity Terrain - URP Demo Scene

Version 1.12.1

- **Update** Mountain Environment
    - Forest Update

Version 1.12.0

- **New** Mossy Cedrus Forest

Version 1.11.0

- **New** Toon Fantasy Nature

Version 1.10.0

- **New** TriForge Assets - The Old Forest

Version 1.9.0

- **New** Raygeas - Suntail Stylized Fantasy Village

Version 1.8.0

- **New** SeedMesh Studio - Jungle - Tropical Vegetation

Version 1.7.0

- **New** Pure Nature - Forest Environment

Version 1.6.0

- **New** Pure Nature

Version 1.5.0

- **New** Fantasy Nature - Blazing Highlands

Alpha Mask and Stamp Creator

Version 1.1.0

- **Update** Keep aspect ratio as it is

Gradient Picker

Version 2.0.0

- **Enhancement** Export Unity gradient as texture for e. g. ShaderGraph
